

# Sun City Summerlin Computer Club New Member Packet

## Enrollment Instructions

1. **Tear off and complete the Member Data Form** (last sheet in this package).

Please *clearly print* your name(s), address, telephone and your 8-digit Sun City Summerlin Community Association ID number(s) as shown on your Sun City ID card.

We would also very much appreciate your email address and information about your past occupation, your level of computer experience, whether you are willing to volunteer in some capacity (computer related or non-computer related), and what types of computer (Windows PC, Mac PC or tablet) and operating system software you use.

All this information will be kept confidential and used only for Club membership purposes.

2. **Membership Dues**

**Full Year:** From January 1 to December 31, dues are **\$10** per member.

**Make checks payable to "SCSCC"**. Please write your full Association ID on the check.

3. If joining at the lab, place your check and the member data sheet into a white payment envelope and return it to the lab monitor. If joining by US mail, place your check and the member data sheet into a postal envelope and mail it to:

**Sun City Summerlin Computer Club  
2251 North Rampart Blvd, Box 111  
Las Vegas, NV 89128**

4. The Club's **Bylaws and Constitution** can be reviewed and printed at the Club's Membership web page at:

[http://www.scscclab.com/About\\_SCSCC/SCSCCMembership.htm](http://www.scscclab.com/About_SCSCC/SCSCCMembership.htm)

The hyperlinks are near the bottom of the Membership page.

# Welcome to the Sun City Summerlin Computer Club

## **We are delighted to have you as a new member.**

Our Club is primarily service-oriented. Our basic function is to help our members further their own interests in personal computing. Our main activities and services include:

## **General Meetings**

General meetings of our members are held not less than 9 times per year at 2 PM on the first Thursday of the month in the Desert Vista Room 5. Meeting activities include announcements concerning Club affairs, informal reports from officers and key staff and a topical presentation on some aspect of personal computing. Following the meeting is an open gathering with refreshments.

## **Club Facilities**

The Club maintains and operates a Computer Hands-on Lab and a Computer Classroom located in the Pinnacle Community Center. Resources include up-to-date computers and extensive software holdings.

## **Web Site**

The Club has an extensive web site that contains the last 60 issues of the Gigabyte Gazette, plus a wealth of useful presentation material from past seminars and classes. The main web site URL is: <http://www.scscclub/>. Handout material for seminars, classes and special interest groups is found at: <http://www.scscclub/SCSCCHome/handouts.html>. For information about the club and its services, check the "About SCSCC" area at: [http://www.scscclub/SCSCCHome/about\\_scscclub\\_frame.htm](http://www.scscclub/SCSCCHome/about_scscclub_frame.htm).

## **Newsletter**

The Club newsletter, the Gigabyte Gazette, is published monthly on the Club's web site at: <http://www.scscclub/>.

## **Helping Hands Team**

A number of our members have developed expertise in a particular area of personal computing, such as word processing, printing, graphics, communications and so forth. Many of these members have volunteered to help others cope with day-to-day crises involving their particular areas of expertise. In most cases, these "helping hands" will try to solve your problem by phone or by email. Occasionally, they will be able to spend some time with you, in person.

This service is free to members of the Computer Club. The names of the "helping hands" are listed on the Club website in the "About SCSCC" area. The hyperlink is in the left-side navigation pane of the "About SCSCC" page. Please note, however, that we do not attempt to solve hardware problems through this program.

### **Free Seminars**

A wide array of special seminars, usually lasting 1½ to 3 hours, are offered each month. Each seminar is devoted to a single topic, such as e-mail programs, networking, photo editing, data security, office suites, Android and Apple smartphones, Google applications, “cutting the cord”, tax software, Windows basics, and so on. There is no charge for seminars. Seating is first come – first seated up to a limit of 45. For a comprehensive list, see: <https://www.scscc.club/smnr>.

### **Special Interest Groups (SIGs)**

A SIG is a small group of Club members (10 to 40 or more) who meet on a regular basis to pursue a particular interest topic in personal computing. Currently active SIGs include: Repair Lab, Internet Investing, iPhone/iPad, Macintosh, and Windows 10. The Repair Lab SIG meets at 12:30 PM each Tuesday afternoon to help members with PC and Macintosh hardware and software installation and configuration issues. Information concerning all the SIGs is posted in the monthly online Gigabyte Gazette.

### **Kaffee Klatches**

The Kaffee Klatches are one of the Club’s oldest and most popular activities. The Kaffee Klatch meets Tuesday mornings at 8:30 as a round-table discussion, question and answer forum. Often the discussions are of fairly advanced topics and issues. Members can raise their most vexing problems and hopefully find answers. There is also a Windows 10 Q&A/Tutorial Session that meets at 9:00 AM on the first and third Saturday mornings.

### **E-mail Discussion Mailing Lists**

The Club has an e-mail broadcast news list, SCSCCNews, through which members are kept up to date on schedules, events and other Club news. The Club also has an e-mail discussion group called HelpingHandsOnline. It is a forum for members to post questions, receive answers and also to receive more technical news.
