

IOS 7 Update

Howard Verne

10/2/2013

First Thing

- **Open *Settings*.**
 - Open *General*
 - Open *Accessibility*
 - Swipe *Increase Contrast* Button
 - Swipe *Bold Text* Button
 - IOS will then reset and reboot

Swipe Changes

- When viewing Message list
 - Swipe **left** rather than right to delete a message source
 - This also works for mail and ???
- When viewing individual Messages
 - Hold finger down to get "*Copy/More*" pop-up
 - More allows you to delete individual messages or all messages (in that thread)
- When viewing message Mail
 - Swipe left to get "*Copy/More*" pop-up
 - More includes Reply/Forward/Move/etc

Swipe Changes

- Swiping from the top shows the Notifications
 - Including stocks/weather/etc
 - This also works for mail and ??? Swiping from the bottom shows the Control Center
 - Can Turn on/off
 - Airplane mode/Wi-fi/Bluetooth/Do Not Disturb/Rotation Lock
 - Volume/Play Control
 - Quick Start for utilities such as: Flashlight/Clock/Calculator/Camera
- Control Notification/Commands
 - Setup/Notification Center
 - Setup/Control Center

Running Apps

- As before, a double click of the home button will display the running Apps
 - Each App shows an icon and a preview window
 - Tap on the preview window to enter App
 - Swipe the preview window up to close App
- When viewing individual Messages
 - Hold finger down to get "*Copy/More*" pop-up
 - More allows you to delete individual messages or all messages (in that thread)
- When viewing message Mail
 - Swipe left to get "*Copy/More*" pop-up
 - More includes Reply/Forward/Move/etc
